

Reminiscent of Pearl Buck? This is a finely crafted piece of literature that you may wish to compare to a sculpture. The careful choice of words and phrasing set this book apart from the crowd. The setting is in mythical Harshbarger Mills WV and is seen through the eyes of Lorraine while you explore this setting and the family influences that make her.

This book is an experience that you will want to share with others through conversation and correspondence.

Could this book happen anywhere? For sure it can. Forget the WV moniker, the book has a universality to it that will make it entertaining and thought provoking to anyone who reads its content. Whether their roots are West Virginia or not there is much here to experience so much so any and all have so much to gain.

Reminiscent of Pearl Buck? You be the judge !!

Noel Jordan, native West Virginian
